Part 1 Business Overview

1. Policy and Business Overview

1.1 Vision Objective Goal / Business Strategies

Thai Stanley Electric Public Company Limited is a manufacturer of automotive lighting equipment with international quality. The goal is committed to producing quality products and value added products that the importance and value to all related group with the company sincerely.

Management Policy is to consider customer satisfaction as the first priority by improving every function; quality control, costing, delivery, development, safety, and relationship through Planning – Doing – Checking process cycle.

1.2 Background

The Company was first registered as a limited company on 30 May 1980. It manufactured, imported and distributed automotive light bulbs and lighting equipment. That was founded by a Thai-Japanese joint venture between Seng Nguan Hong (Sittipol) Company Limited (currently known as The Sittipol 1919 Company Limited) and Stanley Electric Co., Ltd. of Japan. The Company operates three separate plants, producing auto bulbs, dies and molds, and auto lamps.

During year 1980 - 1990 the company invested Bulb factory , Lamp1 factory and Die & Mold factory, has been investment promoted from BOI for every plant and has registered capital of 10 million baht to 153 million baht

During year 1991 – 2001 , the Company was listed on the SET, and the Company's shares began being traded on the SET under the abbreviation 'STANLY'. In the same year, the Company founded own research and development center with promotional support from the Board of Investment (BOI). This center is mainly engaged in researching and developing products for the Company. In July 1993, the Company was converted into a public limited company.

The company entered into a joint venture in establishing new companies: Lao Stanley Co., Ltd. and Vietnam Stanley Electric Co., Ltd. Stanley Electric Engineering India PVT Ltd. PT. Indonesia

Stanley Electric, that also took shares in various companies, such as Inoue Rubber (Thailand) Public Company Limited, Sum Hitechs Co., Ltd. (in 2015 the company sold shares to major shareholder of Sum Hitechs Co.,Ltd.) Sirivit Stanley Co., Ltd., Top Hightech (Thailand) Co., Ltd. and Lumax Industries Limited of India. In addition, the Company formed a technical support alliance with Electro Polymers (PVT) Ltd. of Pakistan and Unitech Machines Limited of India.

The company has registered capital to 383.125 million baht and continued investment in Land around for new factory and new machinery and equipment for business expansion.

During years 2002 - 2010 the company has invested Lamp4 factory at Nava Nakorn Industrial Estate , Klong Luang, Pathumthani (in 2014, the Company sold land and buildings to the company that in the side area from not any operation and damaged by flooding in 2011) and Lamp 5 in the main area Muang , Pathum Thani

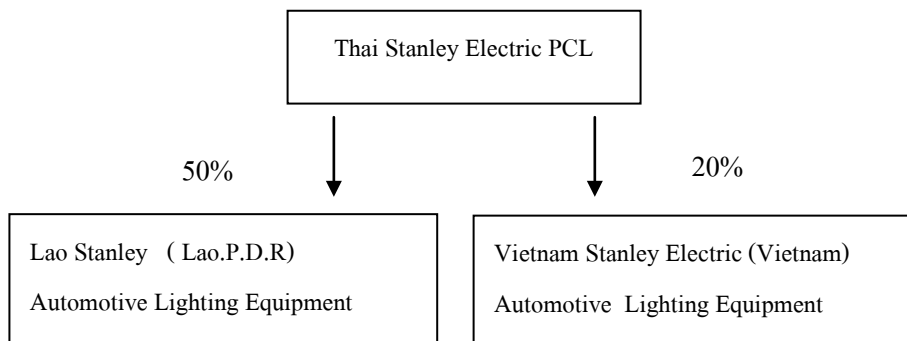

During year 2011 – 2013 Thailand's auto industry development and growth, respectively, but in the years 2011 have fluctuated dramatically from mega flooding in the central of Thailand impact on the automotive manufacturers and parts suppliers, the production and interruption and in 2012 from the needs of consumers returning to the policy of the government to make the first car sales and auto production record high. The company as a manufacturer of automotive parts has been ordered by customers many car manufacturers. As a result, the company is higher and opening of a new plant (Lamp7) to produced lamps for ECO Car, that selling are affect to growth of the automotive market.

During year 2014 – 2016 the automotive industry fell again after delivery of the car from the first car out. The demand for automotive consumer that was used prior to the year 2012, making the auto industry downturn and the decline continued , Agricultural crops production less so the public revenue less and to spending was less than normal. Only Exports and motorcycle market have continued to grow slightly. the automotive manufacturers including companies as part manufacturers have tried hard to remedy the situation and results of operations.

Management: Since the Company's initial establishment and subsequent listing on the SET, the original management team has continued in office without any significant change in management policy.

1.3 Company group holding structure

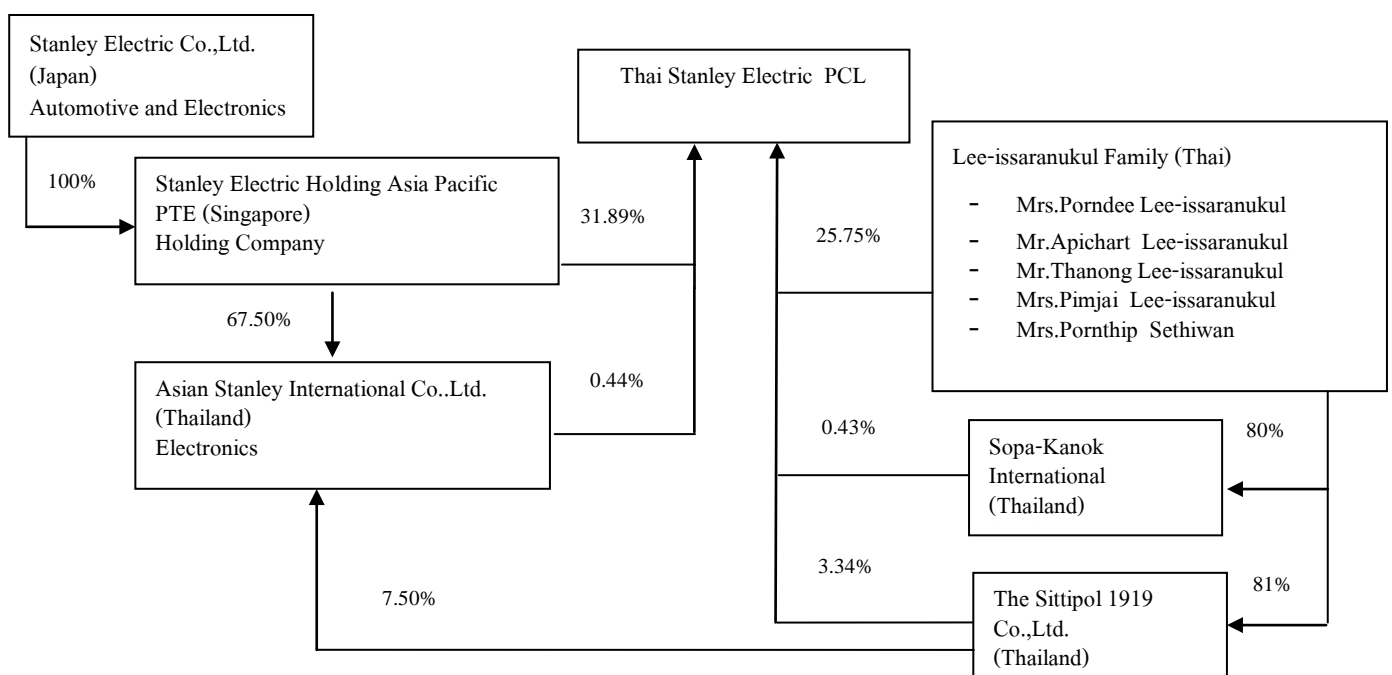

The company has 2 related company that manufacture of Lighting Equipment are Lao Stanley Company Limited and Vietnam Stanley Electric Company Limited which is in the business of lighting equipment. The operations and management based on the consideration of the Board of Directors of each company based on the policy of Stanley group.

1.4 Major shareholder group Relationship

Major shareholder of the company is a group company Stanley Electric Co. Ltd. Japan and the Lee-issaranukul family , who is the founder of the company before listing on the SET. Each group has a representative on the board for the company.

Business operations in accordance with company policy accordance with the Stanley group policy.

2. Conduct of business

The company currently manufactures and market auto bulb, automotive lighting equipment and dies & molds and design. The business segment information for dies & molds and design, which is different from auto bulb, automotive lighting, has not been separately reported as the sales of this segment represent only 4.82% of total sales.

Income Structure

(The Equity Method)

3.2 Size of the business. The production capacity for Mold , about 100 sets and Mold repair 50 sets per year.

(Working time 16 hours / day : 300 days / year) , outgrowth is defect from productions

4. Minimum investment (Excluding land and current capital) not less than 1 million Baht

5. Income tax exemption worth up not over than 190,000,000 baht

2.2 Market and competition

a. Policy and marketing

Because of the limited competition in this industry, the Company's strategy is to manufacture high-quality products at a reasonable price. The pricing policy is based on the cost of manufacturing with a standard profit margin. The Company also has a policy of expanding additional lines of automotive products to meet the demand in the automotive market.

The Company's customers include manufacturers and distributors of motorcycles and motorcars (passenger cars and commercial vehicles). The Sittipol 1919 Co., Ltd. is the Company's dealer in automotive spare parts that The Company has not paid any compensation to dealers.

Distribution channels and customer base

1. Local channels

1.1 Original equipment market: The products are sold directly to local assembly plants in Thailand. Usually, they are used in the manufacturing process or kept as spare parts.

1.2 Replacement equipment market: The products are sold through the Company's dealer, The Sittipol 1919 Co., Ltd. In this market, the products are as replacements.

2. International channels

2.1 Original equipment market: The products are sold directly to local assembly plants abroad. Usually, they are used for manufacturing or kept as spare parts.

2.2 Inter-member market: The products are export sold to each international member of the Stanley Group which engages in automotive assembly. This is to enable those members to assure the availability and quality of their stock. Deliveries are made on their orders from time to time on the basis of a single source. That means the Company is the sole manufacturer and distributor of these kinds of products for the Stanley Group worldwide. This creates economies of scale and efficient cost control. For some members in the Stanley Group, if only a few items are required and it is not cost-effective to order them directly from another manufacturer, an occasional delivery from the Company is a better alternative.

In 2016, The company had domestic sale approximately 67.38% of the company total sale , decreased 2.63% from the previous year which was the automotive industry in stagnation of economic conditions and export sales approximately 32.62% of the company's total sales , decreased 18.19% that sale to foreign customers are in Asia, Europe and the USA.

b. Competition situation

The Company's policy in competitive to practice under the rules of the competition. Not take any action as a monopoly or reduce competition or limited competition

In the local automotive lighting equipment industry, the competition is limited with very few market players. Basically, there are only three manufacturers in Thailand, i.e. the Company , Thai

Koito Co., Ltd and Ichikoh Industry (Thailand) Co.,Ltd. However, the Company is the larger manufacturer and in terms of competition, the Company definitely has the edge over its competitor because the Company's business integrates research and development, design, moulding, manufacturing, assembly and quality control. As regards cost, the Company can take advantage of its being a listed company by obtaining lower cost financing through the Stock Exchange of Thailand, compared with its competitor.

The barriers to entry are high for the following reasons:

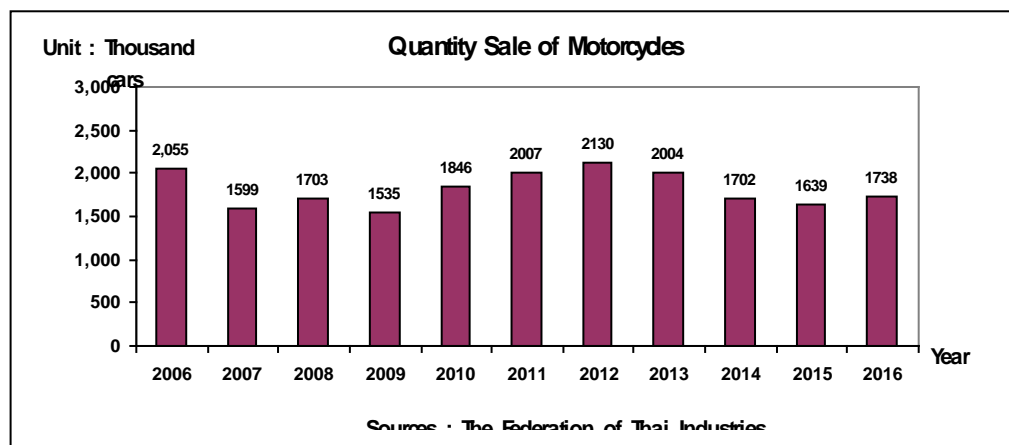

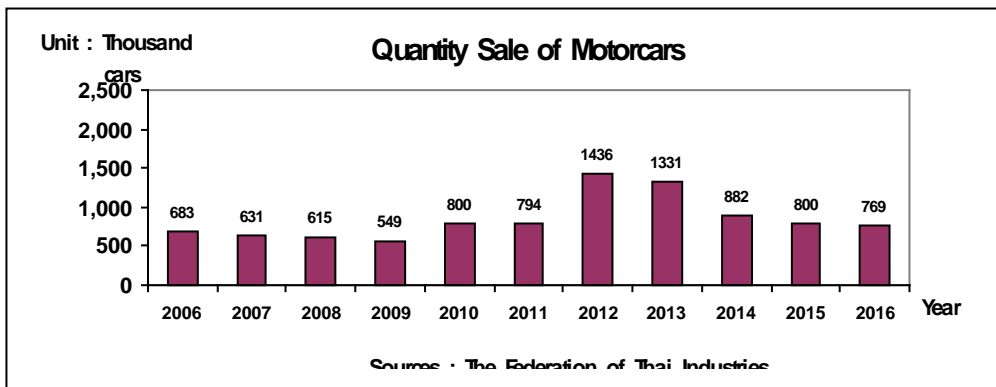

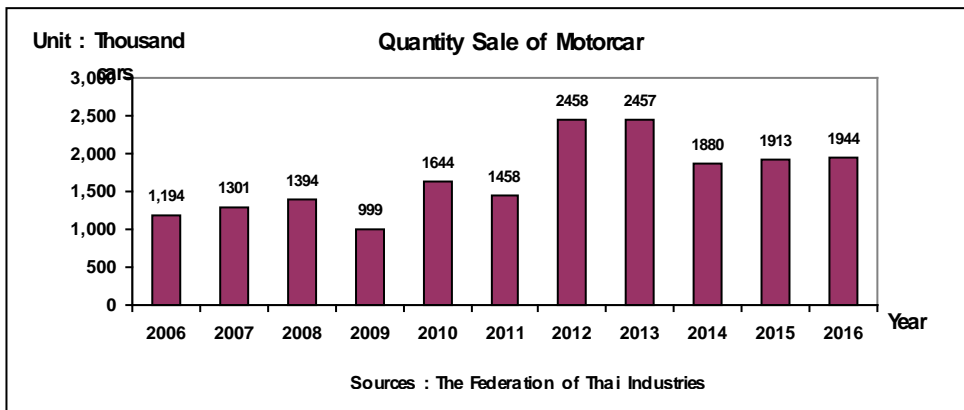

1. Significant investment is needed to acquire the costly machinery, tools and devices, including the equipment for quality testing.
2. The specialist training for workers is expensive and time-consuming.
3. The business naturally relies on specialised technology and must conform strictly to each country's safety standards.
4. The Company benefits greatly from the modern technology and valuable experience transferred from its joint venture partner, Stanley Electric Co., Ltd. of Japan, thereby increasing customers' confidence in the Company.

Because there are so few operators in this industry, the Company has the bargaining power over its customers at a particular level. However, the course of business is still based on the facts, especially, the basis of the actual cost of manufacturing plus standard profit.

Despite the limited number of operators in this industry, there are many suppliers. The Company has a non-monopoly policy with suppliers so that it can negotiate for the lowest price possible.

The automotive industry plays an essential role in the country's overall industrial development. Structurally, the automotive industry is linked to a wide range of other industries. That starts with basic materials, such as steel, plastic, rubber, glass and animal hides and the manufacture of automotive parts. The final process ends with assembly.

Over the past decade, Thailand's automotive industry has improved substantially, making Thailand the largest manufacturer of vehicles and component parts in Asian. The growth of the automotive industry over the past decade can be classified by types of vehicles: motorcars and motorcycles, details as follows

Remark : Not shown graph of motorcycle production data because production and sale are same level

In 2016 the automotive industry , sales continued to decline due to the overall economy in the doldrums but there are good prospects from motorcycle sale increase as few from the previous year.

Naturally, the Company's business aims at the OEM market while the replacement market is its secondary channel. Therefore, the growth of the Company's business over the past decade has been in line with the direction of the country's automotive industry.

2.3 Supplies and services

a. Manufacturing and raw material

The Company has three manufacturing plants as follows:

1. Automotive bulb plant : capacity = 113 million pieces per year

All production from customers' orders and the other portion supplies the Company's lamp plant.

2. Automotive Lamp plant : capacity = 40 million pieces per year

All production from customers' orders

3. Die and Mold plant: Production = 400 pieces per year

All production from customers' orders and the other portion supplies the Company's lamp plant.

The Company currently acquires 68% of materials from local suppliers and 32% import from foreign suppliers. That their price has not changed significantly over the years. Details of local and foreign acquisition of materials over the past three years are as follows

Unit : Million Baht

Sources	31 March 2017		31 March 2016		31 March 2015	
	Amount	%	Amount	%	Amount	%
Local	3,397.57	67.95	3,233.56	66.37	2,843.71	68.15
Foreign	1,602.63	32.05	1,638.56	33.63	1,329.05	31.85
Total	5,000.20	100.00	4,872.12	100.00	4,172.76	100.00

The majority of materials are supplied by Stanley Electric Co.,Ltd. of Japan and other company members in the Stanley Group for the following reasons:

1.The material has characteristic features and can be acquired in large quantities from a single source to save costs. Conversely, it is not cost-effective for the Company itself to manufacture the material in Thailand because of the low demand.

2.A large order is necessary for cost-effectiveness. However, local demand is not large enough. In other words, a small order increases the cost. The Company has therefore opted to buy only essential material locally out of the total quantities obtained from Stanley Electric Co., Ltd. of Japan. This is to reduce the cost of procurement and the risk of dead stock.

3.A single source provides the material on the basis of the alliance among the members of the Stanley Group, resulting in economies of scale. The material is distributed to all other members worldwide.

The price of material provided by Stanley Electric Co., Ltd. of Japan and the Stanley Group is fixed at a reasonable and favourable level. The pricing formula is the actual cost plus administrative expenses. If some kinds of general material can be acquired from other suppliers on favourable conditions, the Company has absolute discretion to proceed with that procurement without abiding by any commitments within the Stanley Group.

b. Environmental impacts

In every production process , The Company to realized the effective to do not adversely affect the environment. For the painting process, a water shield and sludge disposal system are in place to prevent dust in the air. In this regard, the Company has engaged to the company which holds a waste disposal licence, to dispose of and treat the waste. Consequently, no pollution is emitted outside the Company's facilities. That means the environment suffers no impact from the Company's operations.

Now the company has completely Waste Water Treatment , the waste water from all factory will be sent in for proper treatment whose water level can be measured for the standard , that can be brought back for reused in production process and other activity such as toilet flushing , water plant

and Lamp7 factory has reuse it in painting process and flushing water for toilet , and other factory are adjusting this water for appropriate use. Therefore , the company have not any affect to environment.

In all circumstances, the Company recognises the importance of environmental conservation. It has campaigned for environmental management and was awarded ISO14001 certification .The company have designed our products to be environmentally friendly (green products) by relying on chemical-free substances or reducing the use of poisonous chemicals such as mercury (Hg), lead (Pb), chromium 6 (Cr6+), cadmium (Cd) and flame retardants (PBB & PBDE).

In addition, we also provide a green space project in the company , by providing a tree Planting activity on the last working day of the year , Enhancing the green space in the company and create a habit of environmental importance to employees.

The company has no disputes or litigation regarding environmental issues from local communities.

2.4 Undelivered Projects

- None -

3. Risk factors

The Company's risk management policy is ,

The Company must ensure safety of life and body of employees by considering as the highest priority and must maintain process property and to cope with risk by coordinate with local and government offices, make a relationship with other industries as well as provide suggestions of necessary and adequate information for risk management measures

The Company structure of risk management systems, as follows.

- The Executive General Manager of Administration Division is response for the oversight of risk management .

- Appointment of Risk Management Committee Responsible for risk and crisis response. Include consideration and review of risk management policy. As defined in the risk management requirements. , the structure as follow:

Chairman of the Committee is President

Vice Chairman of the Committee is Vice President

Members are executive directors and appointed executives.

In case of crisis , The Risk Management Committee will consider establishing the Business Continuity Plan (BCP) , which will act as a centralized response to the crisis so that it can continue its operations. The structure is as follows.

The Director is the President.

Deputy Director is the Vice President

Membership is the board of directors. Executives from each division and person appointed by the director as necessary.

The Business Continuity Plan (BCP) must coordinate with the Risk Management Committee of Stanley Electric Co., Ltd., Japan. and to continue to operate.

The Company has determined the relevant risks in accordance with the risk control requirements. The main responsibility for regulating people is identifying risks and assessing risks, categorized into 3 types, covering both internal and external factors.

1. Operation Risk , Risk arising from failure of work procedures, strategies and management policies. The job does not comply with the organization's policy / vision (strategic risk), system or equipment is damaged , including operational personnel expected damage may cause damage , inadequacy of financial budgets, disruption in disbursement liquidity foreign exchange risk (Financial Risk) Risk from competition , competitor or the risk of a partner and the suppliers .

2. Crisis Risk and Economic / Political Risk , Risk that need for emergency response measures due to severe impacts, such as natural disasters, epidemics, and economic and political risks.

3. Compliance / Regulatory Risk , Risk arising from the laws, regulations, regulations of the government , use of penalties or indemnities for breach of contract, noncompliance with each type of contract, such as laws, etc., that are expected to cause damage.

Risk assessment , The company evaluates how severely the severity and likelihood of occurrence is by taking the risk very violent , can cause a lot of damage or high chance to accelerate the management of control measures. The risk is not severe and less likely will consider appropriate management.

In 2016 , the company have performed simulations flood crisis. Start from the implementation of management responsible for risk oversight ,the Risk Management Committee ‘s operation and establishment of the Business Continuity Plan and various operations to normal levels. So that all departments understand the role and the simulation results to improve the risk management plan of each agency accordingly with the cooperation of the Stanley Electric Co., Ltd., Japan to advise such simulations.

Furthermore of such measures , in the other departments have responsible for risk control that have been prepared terms and measures in case that crisis. Such as conflagration, substances chemical leak. Including preparation of training plans. Simulation Evaluation of a record, and monitoring the safety of the facility and has established the TOP GUN and training as a special case to as a team supplement in helping prevent and suspend conflagration preliminary to reduce the damage that may occur.

From company Risk Assessment in business risk has not significant effect on investment of the investors. There are only business risk in general and in middle level , that to risk reduce by cost of protection which must be carefully considered. In the budget and must take measures to reduce risk within the fixing date as follows ,

1. Risk caused from economics and political instability in the country

Performance Improvement Strategy Office has been established in order to study about cost reduction as well as study business environment to find measures of maintaining profit margin. Management meeting is held and update information is posted on announcement board every week.

2. Risk caused from foreign exchange rate and loan

Risk from foreign exchange rate .This risk arises because of raw materials importing and exporting. Such business transaction is usually in short term, approximately 1-3 months with currency of Yen and U.S. dollar. Measure of preventing this risk is to use Forward Contract.

Executive committee is the person who considers acceptable risk level for each transaction and each partner. Forward contract policy remains unchanged which can prevent risk by 50% of total net debt in foreign currency. The contract will be made only with the main bank that the company is using service. The company will not do speculating business transaction.

Risk caused from loan. The company has no significant risk from loan clustering. The company made a contract of derivatives and deposited cash with the reliable financial institutions.

3. Risk caused from increasing in materials cost and being short of suppliers

The policy on this matter is not dealing solely with any particular manufacturer or supplier. As the supply is more than demand for this material, the company can choose the supplier who is strong, capable, and stable in financial status. All factors can be a purchasing power of the company to negotiate with the suppliers

4. Risk of a major shareholder group of more than 25%

The company have shareholder of more than 25% of two groups: Stanley Electric. Japan holding 33% and Lee-issaranukul family holding 30% of the shares , by each group assign their representative to be the Executive Director of the Company.

Stanley Electric is the master of the production of all products. The company must rely on technology to produce materials designed by Stanley Electric assistance, which payment the remuneration for each type of transactions in normal business base.

5. Infrastructure and Infrastructure Risks

The company is a manufacturing industry which requires utilities such as electricity, water supply and water supply. The company has set up preventive measures by planning maintenance. Increased power purchase from private sector and insurance to transfer risk and mitigate damage.

6. Computer System Risks

The company has a large collection of information using computer systems ,both production data ,employee information .If the system is damaged, lost or stolen as well as the threat of the virus (Cyber Terrorist) will damage the company. The company has a system of backup and storage ,rReview of major software security updates , the virus detection software is installed and the right to access the information is properly controlled.

Since the company established, no any major changes in the shareholder structure, or business policy . The company has had no impact on issues of major shareholders and management.

The company disclose Social Responsibility report from eight principles of sustainability and social responsibility guidelines of the Company that issued by the Stock Exchange of Thailand. The issues revealed through consideration of the management that show on this annual report page and company website www.thaistanley.com

In 2016 The company operation of social responsibility is as follows.

1. Fair Business Operations

The Company always adheres to fair business conducts in an honest, transparent, and unbiased manner, while promoting the concept to employees at all levels. The company has developed its Code of Conduct for the Board of Directors and other staff members serving as a guideline to perform their duties with honesty and transparency, while taking into account the accuracy of operations, respect of related laws and regulations, and righteousness of working behaviors.

The Company has published and distributed the Code of Conduct guidebook for the Board of Directors and staff members, while disseminating all details in the company's internal media. Certainly, the Code of Conduct developed for the Board of Directors and staff members will be used as a compulsory orientation program for newly recruited employees on a yearly basis.

Furthermore, the aforementioned Code of Conduct has been promoted to all employees working for other Stanley groups to reflect the unity of business management and operations.

Fair Business Competition

The Company has always recognized the importance of fair competition rules that will never regulate market monopoly or cause biased competition to other business rivals.

The Company provides training for employees who are directly involved with this matter i.e. marketing , purchasing etc. whereas other general employees are informed via internal communication and the Office of Internal Audit are examined concerning these aspects on a yearly basis.

Respect of Other Businesses' Property Rights

The Company always takes into account the importance of customer confidentiality. As each product possesses its copyright to be owned by a certain customer, the company will assign a responsible person to take care of the product in every process, starting from the design and manufacturing to the delivery to the customer.

The company has issued its information security policy to facilitate the control and maintenance of corporate data including customer confidentiality. There is an Information System department established to manage and supervise the access to information and control the equipment and programs applied into the company's copyrighted computer-based programs and systems authorized by information technology business providers. Obviously, the information technology department is required to review its policy and other requirements at least once a year, which will be proposed to the Risk Management Committee and the Board of Directors on a yearly basis.

In addition, the company has upgraded its confidentiality measures to rely more on physical controls, requesting for good collaboration from all visitors. Under the company's premises, no photography is allowed unless it is officially approved by the company. Meanwhile, recording of sound or image will never be accepted, particularly in restricted areas, for instance, the research and development department, the new product development department, and the production engineering department.

Social Responsibility Promotion towards Strategic Partners and Business Chains

The Company has efficiently collaborated with strategic partners, both customers and suppliers, via various CSR activities. Currently, those strategic partners have determined to pay closer attention to

social responsibility activities such as environmental development and ISO14001 certification. The company will always be prepared to participate in CSR activities, while keeping its employees informed about the progress of such activities.

Responsible Political Involvement

The Company has policy to forbid political involvement , but will not limit its employees in exercising their political rights by law. As employees are required to be present for political election, they will be allowed to temporarily leave their tasks to exercise their rights without having to deduct their working hours and salary payment.

The company has never been prosecuted for any illegal conduct or regulatory violation regarding the importance of these requirements.

2. Anti-Corruption

The Company has set its anti-corruption policy considered the company's Code of Conduct stating that "The Board of Directors, executives, staff members, and other related parties are strictly prohibited to get involved in any form of corruption including offering, promising, soliciting, demanding, and giving or accepting bribes as well as request others to accept those corrupted practices on their behalf, related to the company's business operations".

For the review and evaluation of this requirement, each department manager is directly responsible for assessing risks in various areas prior to informing the Risk Management Committee at least once a year. Similarly, the Office of Internal Audit will be required to annually evaluate all corruption-related issues before proposing them to the Audit Committee and the Board of Directors, respectively.

For the penalty of misdemeanor, the company will consider the termination of employment contract without compensation payment. However, over the past years, there was no risk of corruption found.

The company has also announced its intention to join the Collective Action Coalition campaign developed by the Thai private sector aiming to promote the earnestness and sincerity of the company's anti-bribery and corruption policy, while preparing to file required documents into the consideration process of relevant agencies.

3. Respect of Human Rights

The Company has issued its labor management manual, considered an ultimate document of the labor management system according to the Thai Labor Standards explained below:

- Citizen Rights and Political Rights

Discrimination: The Company has expressed its intention not to support any discrimination action on employment, payment of wages and other financial supports, social welfares, training and development opportunities, promotion, employment termination, and retirement, which are due to the difference of nationality, race, religion, language, age, gender, marital status, sexual orientation, disability, HIV infection, preference of a political party, or personal concept and idea. The company will never hinder, interfere, or conduct any action deemed to have affected the employees' rights and their routine practices without causing any damage to the organization.

Child Labor: The Company will never approve, support, or get involved in employing a child labor whose age is under 15 years old. Also, the company has never encouraged the use of child labor in any business activity that may cause an impact on occupational health and safety.

Pregnancy: The Company will never allow any pregnant employee to work in inappropriate working conditions that will be harmful to her health and physical body. According to the relevant laws, pregnant ladies must be stationed in an appropriate working environment that will not affect their health and pregnancy. Similarly, there will be no termination of employment offered to pregnant employees, particularly during the pregnancy period. No diminution of position or benefits is always guaranteed due to pregnancy.

The company has cautiously evaluated this issue with its suppliers to promote the abolition of human rights in the Thai society.

Freedom of Business Association and Negotiation: The Company provides its employees with the right to join various committees in the company and fully possess the right of negotiation, selection, or election of corporate representatives. The company will never hinder or interfere with the exercise of employees' rights. At present, the company possesses authorized representatives elected to represent the Welfare Committee and the Occupational Health and Safety Committee. The election will be held in every two years.

Since the establishment, The Company has never been involved in any labor dispute and there is no labor union existing in the company.

- Economic, Social, and Cultural Rights

The Company takes into account the development of the quality of life of its employees to suit current economic conditions. To ensure the happiness of the work-life balance, the company has considered the increase of salaries for all employees on a yearly basis, while providing every personnel with appropriate organization-based welfares such as travel allowance, uniform, and laundry service. Employees will also be offered special presents for special occasions like birthday and the New Year festival. The company approves food expenses for diligent employees working overtime and outside the company. Furthermore, the company also remains alert in offering medical expenses to employees and their family members. These benefits will be considered and approved on a yearly basis.

The company organizes fun-filled activities to promote employees' good health, for example, sporting events and recreation activities. To foster greater awareness of Thai cultures for all employees, the company has launched its culture-based activities. Remarkable examples are the Buddha image bathing, Buddhist lent candle parade, dry-food almsgiving, and merit-making ceremony for special occasions.

In September 2016, the company was honored with the Outstanding Workplace Award for Labor Relations and Welfares by the Ministry of Labor for eleven consecutive years.

Employee engagement activities and award presentation

In October 2016, His Majesty King Bhumibol Adulyadej, the world's longest-reigning monarch passed away, plunging executives and employees into the most grief. In November the company held a religious ceremony in remembrance of His Majesty King Bhumibol Adulyadej and in March 2017 was honorably granted the most memorable opportunity to co-host the Buddhist merit-making ceremony to pay tribute to His Majesty. The Board of Directors, executives, and representatives of the Welfare Committee were present at the royal funeral ceremony held at Dusit Maha Prasat Throne Hall. In May 2017, the company encouraged the employees to make 10,000 flowers for the royal ceremony of His Majesty King Bhumibol Adulyadej that delivered to the Pathum Thani

4. Treatment of Labors

The Company has set its management standards to reflect the company's genuine social responsibility in the labor management aspect. The company is strictly committed to pursuing labor laws and other relevant requirements to generate greater development of employees' quality of life as well as working environment. Additionally, the company has been urged to regularly review its management policies as Thai labor standards are applied to all departments, covering suppliers and subcontractors.

The company has raised the issue of work respect according to the requirements of human rights and the protection of working conditions aiming to facilitate the labors at large.

The STARS Plan has been applied into the human resource management system to ensure effective development of manpower, which can be specified in six major categories.

1. Qualification

The company has set a hierarchy to demonstrate the level of employee performances used to determine fair and reasonable remuneration.

2. Position

The company has defined roles and responsibilities of each employee in the organization clearly.

Promotion will be evaluated according to the criteria set by the Promotion Committee.

3. Rotation

The company approves a change of affiliation by considering types of work to achieve greater development of competency, leading to the promotion to the ultimate level.

4. Evaluation

The company defines performance measurement criteria used in determining salaries, bonuses, promotions, and positions. Besides, this unveils weakness and strength of employees aiming for further development. The company's evaluation criteria are developed based on fair, reasonable, and acceptable principles.

5. Wage Payment

The company has set the structure of wages consisting of basic salary, specialist value, position value, and other financial aids paying for working overtime, working on holidays, working on shifts,

food expenses, diligence allowance, and travel expenses. The company will consider the salary increase on a yearly basis, regarding the payroll index according to the government's approved minimum wage, inflation, and up-to-date industrial condition.

6. Skill Development

The company has reiterated its intention to enhance the ability of employees. The company develops a policy of skill development by means of sequential and on-the-job training programs. Strategic training and self-development programs are also introduced, where employees will be eligible to train with internal and external specialists, including experts from the Stanley Group in foreign countries.

In 2016, the company organized 44 in-house training sessions with 1,575 employees participated in the event, the average of 12 hours of training per person including 274 external training courses. Knowledge-based programs vary in culture of engagement, collaboration and team working, innovation development, and human capacity development based on the 70: 20: 10 learning model. Moreover, 26 employees were previously sent to Japan for overseas training.

The company has been certified with the Thai Labor Standard (TLS 8001 - 2010) of the complete version by the Ministry of Labor, which is audited on a yearly basis.

Occupational Health and Safety at Workplace

Thai Stanley Electric is concerned hugely about the employees' health and well-being. The company has decided to establish policies on occupational health and safety at the workplace in line with regular duties of employees since 2011. Also, the company has been certified with OHSAS18001 in the same year.

The Safety policies include:

1. The company is committed to ensuring that safety is the first priority in every employee's performance.
2. The company will always comply with all applicable laws, regulations, and standards related to occupational health and safety at the workplace.
3. The company will always support the improvement of appropriate working environment and continue to promote secure practices, ranging from using appropriate protective equipment to maintaining good health of all employees.

4. The company will encourage various safety-based activities that will stimulate greater awareness of safety among employees both inside and outside the workplace.

5. The company has requested all supervisors to be good role models, leaders, trainers, and motivators to encourage employees to produce excellent working performances in a secure way.

6. The company has urged all employees to consider their own safety, including security of colleagues and the company's assets at all times.

7. The company has promoted its occupational health and safety campaign to reflect the cleanliness, comfort, cleanliness, hygiene, and habit-forming in the workplace to prevent accidents and diseases due to operations.

8. The Company has motivated all employees to take part in the company's occupational health and safety program, where all employees will possess the right to offer productive comments and feedbacks on the improvement of working conditions and the development of operational safety.

9. The company has offered its firm support to the development of human resources and investment budgets allocated for the management of occupational health and safety at the workplace, ensuring the highest safety for all parties involved.

10. The company has promoted its Completely Check Completely Find Out (CCCF) program to achieve the goal of zero accident both inside and outside the workplace.

11. The Company regularly reviews its performances complying with the well-developed policies.

In 2016, The Company achieved the occupational health and safety campaign, reflecting zero serious accident, illness, death, strike, and fire case. The 8,000,000-working hour rate was achieved in the same year, decreased by 50% from the previous year.

The accident rate was developed to meet the target and the company has successfully increased its working hours to 12,000,000.

The company has announced the launch of its Safety Dojo Training Center to enhance greater safety awareness for both employees and outsiders aiming to support the zero accident campaign.

For other activities related to occupational health and safety at the workplace, the company also provides ongoing training, including security training, for all employees. The program includes the day

and night evacuation drill, emergency preparedness, exhibition of occupational health and safety, energy conservation, Monday meeting, and several other knowledge-based activities.

In July 2016, the company was honored with the Outstanding Occupational Health and Safety Award for the thirteenth consecutive year.

5. Consumer Responsibility

The Company always recognizes the importance of product research and development highlighted by its high-quality lamp of innovative design evolved to ensure great benefits for users, both riders and road users, reflecting the genuine quality and exceptional design based on the eco-friendly concept.

The company has established its Quality Assurance department to efficiently monitor product quality before and after the distribution, while acting as a central agency to be responsible for complaints from customers and users.

The company got the 2016 Quality Award from customers as Honda Access Asia & Oceania Co.,Ltd. and Siam Kubota Corporation Co.,Ltd.

For the manufacturing of light bulbs, the company has collaborated with the Sittipol Group to organize the Dealer Meeting Day for authorized dealers from every corner of the country to meet and exchange their business insights, as part of the strategy to strengthen the light bulb market.

6. Conservation of Environment and Energy

Environmental Conservation

The Company has strategically determined its philosophical concept for the conservation of environment as follows:

“We are strictly committed to preserving the environment and making good use of natural resources through all corporate activities to preserve the fertile nature in the most sustainable way”.

To comply with the aforementioned concept, environmental policies are described below:

1. The company will consistently introduce corporate activities related to environmental conservation and prevention of pollution to minimize the impact on the environment, while remaining

firm in improving every working process varying in design, development, production, and waste management complying with relevant environmental laws and regulations.

2. The company will conduct effective communication programs based on basic philosophy, environmental policies and activities for all employees and related parties aiming to maximize knowledge and understanding on environmental conservation.

3. The company is always prepared to disclose its environmental policies and environmental activities to public.

In 2016, Thai Stanley Electric achieved its environmental conservation targets as follows:

1. Reduction of water consumption by 1% from 2015.

Operation : The company introduced its Water Recycle program to be applied into the development of light bulbs, sanitary wares, and lawn watering system. The program was promoted via the company's public announcement system, Monday meeting, and other knowledge-based activities.

Result: The result was highly satisfactory. It could reduce the use of water supply by 35,000 cubic meters per year.

2. Reduction of wastes by 1% from 2015.

Operation : The company conducted waste classification and introduced a new waste elimination method based on the reuse and recycle concepts. The company also launched an environment monitoring activity participated by the Environment Committee on a quarterly basis to boost greater environmental awareness among employees and other related parties.

Result: The result was achieved as planned. Wastes were classified prior to the recycling process. Additionally, employees appeared to focus more on the company's "5S" health and hygiene campaign.

3. Reduction of paper use by 1% from 2015.

Operation :The company had modified its consistency assessment method through the use of the Excel program, where the waste handling system has been implemented by the Information System department. The paper reduction campaign had been required to be pursued by all departments.

Result: The result was achieved according to plans. Executives and staff members had monitored the program developed in all areas.

In 2016, the measurement of pollution within the company, including noise, water, heat, and air were conducted by external agencies. All pollutions were maintained at acceptable rates complying with the required environmental standards.

Energy Conservation

Thai Stanley Electric has determined efficient energy conservation policies explained below:

1. Be committed to effective energy management and conservation, while strictly pursuing energy conservation laws and regulations.

2. Consider energy conservation to be the responsibility of top management and employees at all levels to cooperate in implementing the prescribed energy conservation measures, including the monitoring of outcomes to be reported to the Energy Conservation Committee on a regular basis. This reflects the company's passionate desire to continuously improve energy efficiency.

3. Allocate sufficient resources for energy conservation and management to ensure that the idea is in line with the company's objectives and goals.

4. Develop effective production process including activities related to energy consumption aiming for the achievement of energy conservation and management, considered part of the company's operations.

5. Improve energy efficiency to be in line with the nature and amount of energy used, where modern technology and good practices are applied in an appropriate and continuous manner.

6. Seek alternative energy to generate sustainable energy and environmental sustainability. It is highly appropriate to disclose the company's energy conservation activities to relevant stakeholders and the general public.

7.Reduce the use of CO2 from 2015 by 1% =1.7529 kgCO2/Pc . (In year 2015 = 1.7706 kgCO2/Pc)

In 2016, the company had approved three environmental conservation policies described as follows:

1. Reduction of power consumption by 1% from 2015. The power and LPG consumption rates per 100 products were allocated for the production of lamps and light bulbs, indicated by working hours.

2. Limitation of power utilization via the computerized program. The company had installed the Power Meter Monitoring system to make efficient evaluation of power consumption and management.

3. Encouragement of collaborative power conservation.

Operation : The company had developed a strict policy on power conservation, requiring the company to power down its electricity on Sunday (once a month). Power conservation campaigns were introduced regularly via various internal media. Meanwhile, the company held its Energy Committee Patrol and Energy Holiday Patrol activities on a quarterly basis.

The company remains firm in pursuing its “Environmental and Energy Culture” stated below:

1. Don't pour oil or chemical waste into the drainage.
2. Turn-off machine and equipment after used.
3. Please consider and neatly check before printing.
4. Sorting waste before discard.
5. Reduce loss from air leak.
6. Thai Stanley commitment to reduce energy consumption.

To stimulate employees to have greater awareness on efficient use of resources, the company has reiterated its intention to promote its energy conservation campaigns via various internal communication media. Impressively, the results can be achieved as planned.

Environment & Energy Culture

The Top management have recognized the importance of conducting regular follows-up on energy conservation activities on a quarterly basis. The company has constructed PQC building, a multipurpose building with canteen, library, gym, and spacious areas for engineering practices initiated to support production and on-the-job training prior to entering the production plant. Moreover, the innovative building is equipped with the Diming Switch system, natural lighting system, and LED lighting system complying with the energy conservation concept.

7. Social and Communal Development

The Company is located at Ban Klang , Pathumthani , and has been established outside the industrial estate location. The company is highly cautious of impacts that may possibly cause to the surrounding communities. Never having any dispute with the community, the Company is in

collaboration with Ban Klang Municipality, representing communal people in organizing tradition-based activities, remarkable examples are the Buddha image bathing, Buddhist lent candle parade, dry-food almsgiving, and merit-making ceremony for special occasions.

For community development, the company has always relied on its unique employment model, where 80% of residents in Pathum Thani province and the nearby vicinity are employed. The company offers opportunities for students of local universities to visit factory for more knowledge and broader understanding on product manufacturing and management.

In 2016, Thai Stanley Electric organized a supportive activity to help farmers during the sluggish rice price period by joining forces with Pathum Thani Provincial Office to launch the “Rice Relief Distribution for Pathum Thani Farmers” project, considered a role model of rice purchase from farmers in Surin, Yasothon, and Roi Et provinces, totaling around 18.5 tons prompted for internal consumption. Local farmers were welcomed to take part in the weekly market activity as they could meet their customers directly.

In addition, to provide sustainable and concrete support to the Thai society, the company had generated its handful investment in Pracharath Rak Samakkee Pathum Thani (Social Enterprise) Company Limited, amounting 890,000 baht or 22.25% of the total investment complying with the government’s policy to establish at least one government-based company in every province across the country. The idea was to support a gradual economic growth for people in the community, varying in agriculture, SME and OTOP business, and tourism.

8. Corporate Social Responsibility Culture towards the Society, Environment, and Stakeholders

As automotive lighting technology unveils the increasing demand for LED lights with energy-saving and long-lasting quality, the Stanley Group is poised to announce its leadership of the LED lighting market, particularly since various innovative products have been evolved to efficiently meet various requirements. The company has continued to promote the use of this modern technology to its customers, partners and people in general.

Corporate Social Responsibility Activities Following the Establishment of Stanley Thailand Foundation

The Stanley Group has established the Stanley Thailand Foundation since 1993, aiming to promote various CSR activities mainly in Pathum Thani province. Remarkable examples of CSR activities launched in 2016 can be described below:

1. Education Activity

1.1 The foundation had presented annual scholarships to 1,523 students from 24 schools in Pathum Thani province and 6 schools in Nakhon Ratchasima province.

For individualized scholarships, the foundation was consistently responsible for all education-related costs starting from the high school to Bachelor's Degree levels. In 2016, three outstanding students were selected to take part in the individualized scholarship program, where one of them was already graduated with a Bachelor's Degree. Currently, there are 28 students selected to join the program.

1.2 The foundation offered its concrete support to the science competition named the Stanley Science Project Contest held to encourage primary and secondary students to create excellent robotic devices. The competition was hosted by the Technology Promotion Association (Thailand-Japan).

Also, the foundation had sponsored the computer training program developed to provide greater information technology knowledge for school teachers as well as the non-soil vegetation project launched by Wat Bang Kudi School in Muang Pathum Thani district, Pathum Thani province.

1.3 The foundation donated educational equipment and 300 bicycles to 30 schools in Lat Lum Kaew, Thayaburi, Lam Luk Ka, and Nong Sua communities. Furthermore, the company had presents library books for another 83 schools in Pathum Thani and Nakhon Ratchasima provinces.

1.4 The foundation supported the construction of school building, purchase of playground equipment, and allocation of electrical appliances, books, and toys to Kukwang Child Development Center in Lat Lum Kaew , Pathumthani .

2. Environment Activity

The foundation had donated garbage to communities in Pathumthani such as Banklang Municipality , Kukwang Municipality and Suan Prik Thai Subdistrict Administrative Organization.

The foundation also renovated a flower garden for Wat Chin Wararam School.

3. Charity Activity

The foundation had donated other necessities for HIV-patient of Wat Phra Bat Nam Phu in Lopburi province and lame children of the Ruamphanya Person Lame Association in Nonthaburi province.

14. Management Analysis and explanations

14.1 Overview results operations

In 2016, the Company's all revenues were increased slightly and operating profit decreased from the previous year, sale increased 3.30% and other income decreased 57.47% from gain on sale of long term investment – Sum Hitech Co.,Ltd. The company's operating profit was decreased 5.74%, following the direction of the automobile and domestic economy, which has continued to slump since 2013, with domestic car sales decreased 4% and export sales decreased 1%. Motorcycle sales slight increase of 4% from last year.

Operating result and profitability

In 2016, The total sale and services were 11,024.80 million baht, increased on the previous year 352.57 million baht or increased 3.30%, detail as follows.

Domestic sale was 7,428.98 million baht or 67.38% of total sale and decreased 2.63% from the previous year same as trend of automotive industry and export sale was 3,595.82 million baht or 32.62% of total sale and increased 18.19% from the previous year.

Sale by product as Automotive Bulb was 5.69% decreased 2.21% from the previous year and Lamp was 89.49% of total sale and increased 6.44% from the previous year, Die & Mold and design sold was 4.82% of total sale and decreased 30.23% from the previous year that sold to Stanley group companies by sales each year, depending on the needs of the Stanley group Company.

Other Income total 185.97 million baht, decreased 57.47% from the previous year, in gain on sale of long term investment (Sum Hitechs Co.,Ltd.) amount 261.91 million baht. Other income such as Dividend income, Gain on Exchange rate.

Expense – Cost of sale was 9,087.20 million baht or 82% of total sale and increased 1.77% from the previous year, the cost of sale increased less than sale because of many new products launch during the year and price rate too better and the company continue control cost in every department so gross margin was 1,937.60 million baht or 18% of total sale and increased 11.18% from the previous year

Selling and Administration expense was 799.01 million baht or 7.25% of total sale, increased 3.12% from the previous year.

Operation profit was 1,324.56 million baht or 12.01% of total sale and decreased 5.74% from the previous year,

Net profit was 1,270.77 million baht or 11.53% of total sale and decreased from the previous year 2.51% .The overall decrease was due to a decrease in total revenues from other income.

Asset Management

Total Assets

As at 31 March 2017 ,total assets were 15,185.83 million baht increase from the last year 5.40 %. The main item as follows:,

- Current assets were 7,738.06 million baht or 50.96% of total assets , increased 9.61% from Short-term investment held to maturity 3,836.96 million baht increased 80.99% that from bills of exchange and fixed deposit which have original maturities over 3 months but not over 12 months , and Current portion of loan to employees 33.87 million baht increased 63.68% that bear interest rate at 1.90% per annum and the repayment periods are between 2 months – 3 years

Inventories net were 721.74 million baht , decreased 6.56% also due to production , main inventory from work in process was 43.82% , raw material and packaging 35.95% and finished goods 11.33%. The company have policy to production as customer order not more stock for inventory control cost , the company have inventory provision 29.81 million baht main in expired raw material and packaging.

- Non-current assets were 7,447.76 million baht , or 49.04% of total assets , increased 1.36% from Investment in associates 1,048.23 million baht increased 12.54% and Property, plant and equipment net were 5,460.12 million baht decreased 1.37%, that the company slow down to investment in equipment and machinery due to automotive industry trend decreasing. The company ratio for return on asset was 8.59% decreased from the previous year that ratio was 9.47% , fixed asset return ratio was 41.67% decreased from the previous year that ratio was 47.69% and asset turnover ratio was 0.76 times increased from the previous year that ratio was 0.80 times.

Total Liabilities

Total liabilities of the company were 1,844.35 million baht decreased from last year 2.89% which comes from the shift from overseas purchases to more domestic purchases. (Localization), resulting in a significant exchange cost and related costs. so the company account payable turnover ratio was 7.50 time , nearly the previous year ratio was 7.74 times

Equity

Total equity was 13,341.48 million baht increased 6.66% from the previous year and return on equity ratio was 9.83% decreased from the previous year that ratio was 10.84%

Cash flow structure

The company had cash and cash equivalents, net 1,085.63 million, decreased 40.99 % that current ratio was 5.00 times that high ratio and to classified as cash flows from operating activities amount 2,372.08 million baht used in investing activities was 2,743.10 million baht and financing activities for dividend by 382.86 million baht .

The company continues to invest in building improvements, machinery and equipment but lower investment by the automotive industry trend and increased investment for Die & Mold part that for support to new model production that continuing launch .

Debt servicing obligations and management of off-balance sheet obligations.

The Company adopts the policy to use cash flow to invest and spend in the company. Do not focus on lending , the company has no outstanding debt and interest expense. There are only account payable liabilities and commercial liabilities as usual , the company has a debt to equity shareholders ratio was 0.14 times nearly as last year that ratio was 0.15 times , which is very small because the company has very little debt.

14.2 Factors or events that could affect the financial position or operations significantly in the future.

The Economic and automotive industry are the main factors that affect the operation of the company directly and current political situation affects the economy and the automotive industry. The production and sales decrease drastically. The Company need to take measures to reduce costs and slow down investment to comply with this a situation

The company continues to make a significant contribution to research and development. Customers still have plans to launch new models constantly, the company continues to gain the trust of getting to Lamp products throughout.

3.1 Report of Audit Committee

Report of the Audit Committee

The Audit Committee of the Thai Stanley Electric Public Company Limited was appointed following a resolution at the Board of Directors Meeting on 29 July 2016. The Audit Committee's scope of responsibility was assigned in the "Audit Committee Charter", which was revised on 10 February 2017, according to the regulations of the Stock Exchange of Thailand.

The Audit Committee consists of three independent members who are fully qualified according to the Capital Market Committee's notification. They are Mr. Krisada Visavateeranon as Chairman of the Audit Committee, with Mr. Chokechai Tanpoonsinthana and Mr. Suchart Phisitvanich as the Audit Committee members, Mrs. Nongyao Apiram is the secretary.

In fiscal 2016, running from 1st April 2016 – 31st March 2017, the Audit Committee performed its duty according to the responsibility as delegated by the company's Board of Directors which corresponding to the regulations of the Stock Exchange of Thailand. There were 9 Audit Committee meetings, of which 4 meetings was a non-management meeting with an auditor and the other 5 meetings were performed with executives, auditors, and internal auditors attending as necessary. The Audit Committee members attended all the meetings. Major activities were as follows.

1. Reviewed the financial report. The Audit Committee reviewed the interim and annual financial statements of 2016 that were reviewed and audited by the auditor for propose to The Board of Director Meeting. The Audit Committee were questioning and listening to the executives' and auditors' clarifications concerning the correctness and completeness of the financial statements and the adequacy of information disclosure for the year 2016. The Audit Committee agreed with the auditors that the financial statements were correct and adhered to the general accepted accounting principles.

2. Reviewed the internal audit system by considering the scope of work, the responsibilities and independence of the Internal Audit and approved the annual internal audit plan, in which the Audit Committee was opinion that the Company conducts sufficient and appropriate internal audit control.

3. Reviewed the company's internal control system to evaluate the sufficiency, appropriateness and effectiveness of the internal control by considering the annual internal audit report according to the approved audit plan, It was found that there were no significant faults and there was appropriate, accurate, complete, and reliable of information disclosed. Auditor was no serious concerns about the internal control. In addition, the Audit

Committee had considered the evaluation of internal control in accordance with the guidelines established by SEC. The Audit Committee had opinion that the internal controls system sufficient and appropriate and accordance to internal control framework of COSO.

4. Reviewed the Company's risk management of 2016 for its appropriateness and adequacy.

5. Reviewed compliance with the Securities and Exchange Acts, Regulations of the Stock Exchange of Thailand and other relevant laws, including compliance with the Company's requirement. The Audit Committee did not find any instance of significant non-compliance with the law, regulations.

6. Reviewed and opined related transactions or transactions that may have conflicts of interest, and disclosure of such transactions to comply with regulation of the Stock Exchange of Thailand (SET) and the Office of the Securities and Exchange Commission (SEC). The external auditors opined that the significant transactions with related persons were disclosed and shown in the Financial Statement and Notes to the Financial Statements. The Audit Committee had the same opinion as the external auditors and also considered that such transactions were reasonable and beneficial to the business of the company and were disclosed correctly and completely.

7. Considered appointing the external auditors and their remuneration for the year 2017 for propose their appointment to the Board of Directors for approval at the annual ordinary shareholder's meeting for the year 2017. The Audit Committee considered the performance, independence and remuneration and agreed to propose appointing Miss Varaporn Vorathitikul, Certified Public Accountant (Thailand) No. 4474 and/or Mrs. Unakorn Phruithithada, Certified Public Accountant (Thailand) No. 3257 and/or Mr. Prasit Yuengsrikul, Certified Public Accountant (Thailand) No. 4174 and/or Mr. Vichien Khingmontri, Certified Public Accountant (Thailand) No. 3977 in the name of the PricewaterhouseCoopers ABAS Co., Ltd. as the Company's auditors for 2015. The Audit Committee has the following opinions regarding the external auditors;

- They demonstrate a good work standard and expertise in auditing and have performed their duty efficiently.

- The aforesaid audit company and auditors have no relationship or stakes with the Company/ executives/ major shareholders or persons related to those mentioned. Therefore there will be auditing independence and opinion in the Company's financial statement.

- The remuneration is deemed appropriate.

The Audit Committee fulfilled the responsibility of the Audit Committee Charter as approved by the Board of Directors and found that the Company's disclosed financial and operation in fiscal 2016, running from 1st April 2016 – 31st March 2017, had appropriate and effective internal control and audit, complied with laws, regulations and obligations, disclosed the connected transaction correctly, performed duties in compliance with the Good Corporate Governance principles with adequacy, transparency and reliability.
